

## Hotspot Connectivity Pricing Changes Effective July 1, 2017

### Overview

Effective **July 1, 2017**, Hotspot will introduce revised fees for physical connectivity to its London matching engine located at the Equinix Slough (LD4) data centre.

The following physical connectivity fees will apply:

| Equinix Slough (LD4) Physical Connectivity |              |                        |
|--|--------------|------------------------|
|  | Installation | Monthly Rental         |
| 1G and below                               | No charge    | \$500 per connection   |
| 10G  | No charge    | \$1,000 per connection |

Hotspot will pass through all data centre cross connect charges

Hotspot's London matching engine represents an increasingly diverse and growing pool of spot FX liquidity, averaging \$2.9B in daily volume in the month of March 2017. Clients can choose to trade with complete anonymity on Hotspot's ECNs, or with preferred counterparties via Hotspot's Link Full Amount technology. The London platform leverages the Hotspot New York credit workflow for a seamless pre- and post-trade credit solution. Please visit [www.hotspotfx.com](http://www.hotspotfx.com) for more information.

### More Information

Hotspot appreciates your continued business. Please contact your [Director of Sales](#) for any additional information regarding these changes or any of Hotspot's award winning products.
